Gov't plan to sell PNOC-EDC assailed

MANILA, Philippines (AP) — The Philippine government's plan to sell its state-owned oil company, PNOC-EDC, has been assailed by critics who say it will hurt the country's economy. The plan, announced last week, would allow foreign investors to buy shares in the company, which is a major supplier of oil to the Philippines. Critics argue that the sale will lead to a loss of control over the country's energy resources and that it will not generate enough revenue to offset the costs of the sale. They also say that the sale will hurt the local oil industry and that it will lead to a loss of jobs. The government, however, says that the sale is necessary to raise funds for the country's development and that it will ensure that the company remains under government control.

Sadly the very issues of corruption on a massive scale and paralyzing of congress and the judiciary are the very symptoms of a dysfunctional unitary system that has been the result of the failure of the federalism movement in the Philippines. Development agencies so badly need to see our desperate Filipinos who by millions are already dying that are Federal are overly served by the state system of our over centralized patronage based state system. The **FEDERALIST FORUM OF THE PHILIPPINES** believes that the movement towards Federalism must be and should be led by Civil Society groups and Filipinos living individuals without a personal or corporate agenda. We welcome sincere support from Foreign Agencies, the statement and Filipino living individuals. We demand efforts to use Federalism for short-term strategic reform.

First win for amparo: Zambo activist freed

Manila — A human rights activist who was arrested in Zamboanga last month has been freed after a court granted him a writ of amparo. The activist, who is a member of the Zamboanga Human Rights Committee, was arrested on charges of being a member of a subversive organization. The court, in its decision, stated that the activist's arrest was illegal and that he was being held without proper legal basis. The activist's family and supporters expressed their relief and joy at the news of his freedom. They also called for the release of other political prisoners who are being held without due process. The case is seen as a significant victory for the human rights movement in the Philippines, particularly in the context of the ongoing conflict in Mindanao.

Pakistan police arrest Bhutto supporters

Thousands reported rounded up after Bush tells Musharraf to hold elections

ISLAMABAD (UPI) — Pakistani police arrested thousands of supporters of the ousted prime minister, Benazir Bhutto, on Monday after U.S. President George W. Bush told Pakistani President Pervez Musharraf to hold elections.

The arrests were reported by the Associated Press, citing a source familiar with the situation. The source said that the police were targeting supporters of Bhutto, who was ousted in a military coup in November 2004.

Bhutto, who was the first woman to lead Pakistan, was arrested in March 2005 and charged with conspiracy in the 1999 bombing of a U.S. Navy ship. She was released in June 2005.

The arrests on Monday were part of a larger operation to round up supporters of Bhutto across the country. The police were reportedly targeting supporters in the cities of Karachi and Lahore.

The arrests came after Bush's announcement that he would pressure Musharraf to hold elections. Bush said that the United States would not support Musharraf unless he held elections.

Musharraf had been in power since a military coup in 1999. He had been criticized for his handling of the economy and for his relationship with the United States.

The arrests on Monday were the latest in a series of actions taken by the government against supporters of Bhutto. In the past few months, there have been several reports of arrests and harassment of supporters.

The arrests have sparked criticism from human rights groups and from the international community. They have also led to a wave of protests across the country.

Bhutto's supporters have accused the government of targeting them because of their political beliefs. They say that the arrests are part of an effort to silence opposition to the government.

The government has denied these accusations. It says that the arrests are necessary to maintain law and order and to ensure the stability of the country.

The situation in Pakistan remains tense. The government is facing a lot of criticism for its handling of the situation. It is also facing a lot of pressure from the international community to hold elections.

It is unclear when elections will be held. The government has said that it will hold elections as soon as possible, but it has not set a date.

The arrests on Monday were a significant development in the ongoing political crisis in Pakistan. They have raised the stakes and have made the situation even more complicated.

Figure 1 is a 3D bar chart illustrating the distribution of the number of species (N) for different numbers of genera (G). The x-axis represents the number of genera (G) from 1 to 10. The y-axis represents the number of species (N) from 1 to 10. The z-axis represents the number of species (N) from 1 to 10. The bars show the frequency of each combination of G and N. The distribution is skewed towards higher numbers of genera and species.
